Meeting was called to order at 6:47. Visitor Kathy Meggs explained Andrew Smith and Cole Dickerson were working on a Scout project and a requirement was to attend a Board Meeting. They were welcomed.

In order to assist the two Scouts with their project, a brief overview and discussion was had regarding the Ambulance Service itself, the possibility of transitioning to ALS, the difference between ALS and BLS, Connect CTY and its advantage for early notification of the residents, the emergency warning sirens, and membership requirements.

Arlene Geppert arrived midway through the above conversations. She was introduced to the visitors and provided them a brief tour and explanation of the ESDA office and requirements.

Jason Poston advised the Ambulance Service Membership did NOT want to separate the units as discussed with Randy Lay, St. Clair County EMA, in the event of an emergency warning siren activation. He also stated the crews would rather remain in a safe shelter and respond as needed/required.

After additional discussion on Connect CTY, the committee agreed to revisit funding alternatives to move forward.

A motion was made by Cockrell to adjourn at 7:15PM.
